## SKILLS

### · Languages & Markup:

JavaScript, Typescript, HTML5, CSS3, JSX

### · Frameworks & Libraries:

React, Tailwind CSS, Sass/SCSS, Express, React Router, Vite, Framer Motion, Mongoose

### · Frontend Expertise:

Component-based architecture, OOP fundamentals, State management, Responsive design, REST API consumption, Debugging & performance tuning

### · Backend Expertise:

Node.js, Express, MongoDB, JWT authentication, RESTful API design, CORS, Environment variables, API security

### · Tools & Platforms:

Git & GitHub, Netlify, Railway, npm, VS Code, Chrome DevTools

### · Core Strengths:

Fast learner, Adaptable to new tools/frameworks, Proactive problem-solver, Clear communicator

## LANGUAGES

Romanian

English

## PROFILE

Full-Stack Developer with an engineering background, passionate about building modern, user-centric web apps. Experienced in both frontend (React, TypeScript, Tailwind CSS) and backend (Node.js, Express, MongoDB, JWT). I build modern, accessible UIs and robust APIs, with projects demonstrating real-world logic and strong UX. Seeking a junior frontend, backend, or full-stack role in a collaborative team to grow and deliver production-ready features.

## EDUCATION

### **Bachelor's degree , Faculty of Electronics, Telecommunications and Information Technology, POLITEHNICA University of Bucharest**

Oct 2018 — Sept 2024

## PROJECTS

### **Fantasy-Lab – Full-stack Fantasy Football planner**

Full-stack app for managing Fantasy Football squads, fixtures, and stats. Features JWT authentication, RESTful API (Express & MongoDB), and a React frontend. Includes user registration/login, protected routes, and real-time data updates.

### **PitchCraft – AI Startup Pitch Generator with Anthropic Claude Integration**

AI-powered app for generating complete, investor-ready startup pitches in seconds. Write your idea, select industry, and export or save your pitch. Features real Anthropic Claude API integration, PDF export, pitch history, and a responsive UI.

### **DevQuiz - Dynamic React quiz app with score logic, page routing & animations**

Fast, multi-category quiz app with sound feedback, animated transitions, score tracking, and keyboard navigation. Built with React Router for page navigation and custom logic for timers, answer validation, and UI feedback.

### **ChefClaude – AI Recipe Generator with API Integration**

AI-powered recipe generator that fetches dynamic meals from the Claude API. Includes animated transitions, persistent ingredient tracking, and localStorage-based data saving.

## EXPERIENCE

### **Front End Trainee, EPAM Systems**

Sept 2025 — Dec 2025

I completed a program focused on expanding my frontend skill set, deepening my JavaScript and CSS foundations while building confidence with TypeScript. The program combined workshops, assignments, and a final project, emphasizing practical implementation (DOM manipulation, async flows) and professional tooling with Git, plus exposure to the broader JavaScript frameworks landscape.

### **Quality Assurance Tester, Electronic Arts**

Jun 2021 — Aug 2021

Worked in a cross-functional Agile team to test gameplay functionality and identify software issues. Developed attention to detail, bug reporting skills, and experience collaborating with developers and testers in a professional setting.
